

**FRIDAY October 8, 2010
MORNING**

ROOM A

WFSA PANEL DISCUSSION

WHO IS SUPPOSED TO BE INTENSIVE CARE SPECIALIST?

Chairman: Dragan Vučović

09.00 – 09.15 *Dragan Vucovic*

09.15 – 09.30 *Philippe SCHERPEREEL*, WFSA Scientific Committee Chairman, ESA
CEEA Chairman

09.30 – 09.45 *Jannicke Mellin-Olsen*, WFSA Education Committee Chairperson, UEMS
Section of Anaesthesiology President

09.45 – 10.00 *Paolo Pelosi*, ESA President

10.00 – 10.15 *Hugo Van Aken*, ESA NASC Committee Chairman

10.15 – 10.30 *Gabriel Gurman*, ESCTAIC Board Member, ISIA Faculty Chairman

FRIDAY October 8, 2010
MORNING

ROOM B

WHAT IS NEW IN SEPSIS TREATMENT

Moderator: Jean-Louis Vincent

09.00 – 09.20 Management of the septic patients
Jean-Louis Vincent

09.20 – 09.40 ARDS management in septic patients
Miodrag Milenović

09.40 – 10.00 Septic problems associated with chronic renal failure (Balkan nephropathy)
Merina Savin

10.00 – 10.20 Polymorphisms of the proinflammatory and antiinflammatory mediator genes in Serb population of the critically-ill patients
Maja Šurbatović, Nikola Filipović

10.20 – 10.40 Congenital immune response and sepsis – the role of Toll-like receptors
D. Đorđević, Nikola Filipović

10.40 – 11.00 Biomarkers and sepsis; what is new
Radmilo Janković

11.00 – 11.20 Severe pancreatitis and its septic complications
Dejan Radenković

FRIDAY October 8, 2010

MORNING

ROOM C

CARDIOVASCULAR DISORDERS AND ANAESTHESIA

Moderator: Radomir Sindjelić

09.00 – 09.20 Preoperative evaluation and preparation of the cardiac patients for non-cardiac surgery

Radmila Kolak – Serbia

09.20 – 09.40 Myocardial protection during anaesthesia

Fotini Danou – Geece

09.40 – 10.00 Hypertension and anaesthesia

Nathan Weksler-Israel

10.00 – 10.20 Supraventricular tachycardia in perioperative period

Gordana Vljakovic - Serbia

10.20 – 10.40 Acute pulmonary hypertension in perioperative period

Radomir Sinđelic – Serbia

10.40 – 11.00 Our experience with cardioprotection during anesthesia

Ino Husedžinović - Croatia

11.00 – 11.20 Perioperative management of antiplatelet agents in noncardiac surgery of patients with coronary stents

Daniela Filipescu - Romania

FRIDAY October 8, 2010
AFTERNOON

ROOM A

**ANAESTHESIA MANAGEMENT OF THE PATIENT WITH
PULMONARY DISEASE**

Moderator: Dušica Stamenković

15.00 – 15.20 Corticosteroids in ALI/ARDS
Paolo Pelosi

15.20 – 15.40 Smoking and anaesthesia
Menelaos Karanikolas

15.40 – 16.00 Anaesthesia in patients with COPD
Snežana Kovačević

16.00 – 16.20 Artificial ventilation in patients with COPD
Gordana Jovanović

16.20 – 16.40 Pulmonary hypertension: Physiology and intraoperative management
Milić Veljović

16.40 – 17.00 Anaesthesia in patients after lung transplants
Aleksandra Kaluđerović

**FRIDAY October 8, 2010
AFTERNOON**

ROOM B

THE PLACE OF EPIDURAL IN ANAESTHETIC PRACTICE

Moderator: Vojislava Nešković

14.00 – 14.20 Benefits of the thoracic epidural anesthesia
Hugo Van Aken

14.20 – 14.40 Epidural anaesthesia for prolonged limb surgery: pushing the boundaries
or following the patient's requests?
Svetlana Rutter

14.40 - 15.00 Thoracic epidural anaesthesia of patients operated for colorectal cancer
Dragana Radovanović

15.00 – 15.20 Neuroaxial blocks in liver surgery: a true story
Dušica Stamenković

15.20 – 15.40 Epidural in delivery – naturally! But how?
Jelena Filimonović

15.40 – 16.00 Complications in thoracic epidural anesthesia: Are we too concerned?
Vojislava Nešković

FRIDAY October 8, 2010

ROOM C

AFTERNOON

ANAESTHESIA AND ENDOCRINE DISEASES

Moderator: Nevena Kalezić

15.00 – 15.20 Anesthesia in patients with pheochromocytoma: the anesthesiologist's nightmare?

Nevena Kalezić

15.20 – 15.40 Prevention of the acute adrenal insufficiency – perioperative glucocorticoid supplementation

Ljiljana Gvozdenović

15.40 – 16.00 An impaired thyroid function in non-endocrine surgery

Verica Sabljak

16.00 – 16.20 Hyperparathyroidism and anesthesia

Vesna Malenković

16.20 – 16.40 Diabetic patient and perioperative period

Jelena Veličković

16.40 – 17.00 Glucoregulation in ITU

Mirjana Šumarac

FRIDAY October 8, 2010

At 06.00 p.m. - BAF meeting

**SATURDAY October 9, 2010
MORNING**

ROOM A

PAIN SERVICE AS ROUTINE

Moderator: Nebojša Lađević

09.00 – 09.20 Modulation of the nociceptive transmission at dorsal horn
Philippe Scherpereel, France

09.20 – 09.40 Acute pain service
Andreas Kopf, Germany

09.40 – 10.00 Perioperative pain control – concept of the multimodal analgesia
Sanja Đorđević Marić, The Republic of Srpska

10.00 – 10.20 Assessment and pharmacological management of postoperative pain
Ivan Smilov, Bulgaria

10.20 – 10.40 Preemptive Antihyperanalgesics on Postoperative Pain Control: Myth or Reality?
Miroslava Pjevic, Serbia

10.40 – 11.00 Novel molecular targets in pain research
Ivana Kalezić, Sweden

11.00 – 11.20 Coanalgesic Therapy: Clinical Implications of Basic Research achievement
Lepa Jovanovic, Serbia

SATURDAY October 9, 2010
MORNING
ROOM B

**COMBINED GENERAL AND REGIONAL ANAESTHESIA IN
PEDIATRICS**

Moderator: Dušica Simić

09.00 – 09.20 Combination of general and regional anesthesia in pediatric patients
Dušica Simić

09.20 – 09.40 Specific qualities of the central nerve block performance in pediatric age
Ivana Budić

09.40 – 10.00 Specific qualities of the peripheral nerve block performance in pediatric age
Boško Mijomanović

10.00 – 10.20 Caudal block in children – pros and cons
Vesna Peković Zrnić

10.20 – 10.40 The safety and complications of the regional anaesthesia in children
Richard Howard

10.40 – 11.00 Regional anesthesia in pediatric cardiosurgery
E.Schindler

11.00 – 11.20 Adjuvants in pediatric regional anesthesia
Adelais Tsiotou

SATURDAY October 9, 2010
MORNING
ROOM C

PROS & CONS IN AIRWAY MANAGEMENT

Moderator: Dušanka Janjević

09.00 – 09.20 Airway management - are we getting better or worse?

Michael Dobson

09.20 – 09.40 Predictors of the difficult airway – Are they really predictive

Massimiliano Sobello

09.40 – 10.00 We need a flexible fiberscope for managing the difficult airway, Pro and Con.

Pierre Diemunsch

10.00 – 10.20 Supraglottic devices replace endotracheal tube – Step forward or back?

Dušica Stamenković

10.20 – 10.40 The airway and trauma

Radmilo Janković

10.40 – 11.00 The upper airway obstruction. How is it recognized and solved ?

Dušanka Janjević

11.00 – 11.20 Do we need airway management algorithms?

Kamil Talker

11.20 – 11.40 Cricoid pressure – yes and no

Aleksandar Pavlović

SATURDAY October 9, 2010

12h

**WORKSHOP CONNECTED TO PROS & CONS IN
AIRWAY MANAGEMENT SESSION**

Moderator: Dušanka Janjević

Anticipated difficulty – flexible fiberoptic intubation

Unanticipated difficulty (video intubation equipment - SensaScop)

Supraglottic devices (cLMA, Proseal. ILMA, C-Trach)

Rescue techniques- can't intubation, can't ventilation

SATURDAY October 9, 2010
AFTERNOON
ROOM A
TRAUMA

Moderator: Nada Popović

15.00 – 15.20 Organization and performance in the trauma room: The Turkish model and Experience
Korhan Taviloglu

15.20 – 15.40 Team Co-operation in the Trauma Room
Jennicke Mellin-Olsen

15.40 – 16.00 Anesthesiological challenges in management of major abdominal trauma
Biljana Stošić

16.00 – 16.20 Significance of monitoring in trauma
Vojislava Nešković

16.20 – 16.40 New transfusion approaches in trauma
Dragica Vučelić

16.40 – 17.00 Anesthesiologist in trauma team
Nada Popović

17.00 – 17.20 Trauma in pregnancy
Ljubica Arsenijević

17.20 – 17.40 Trauma & internet
Korhan Taviloglu

SATURDAY October 9, 2010
POPODNE
SALA B

MEDICOLEGAL ASPECTS IN ANAESTHESIA

Moderator: Gabriel Gurman

15.00 – 15.20 Medicolegal and Ethical Aspects of Anesthesiological Practice
Slobodan Savić

15.20 – 15.40 The Israeli anesthesiologist in court. A 90-case expert experience.
Gabriel Gurman

15.40 – 16.00 Withdrawal of support in patients at the Intensive Care Unit: Legal aspects
Mirjana Sosolceva – Macedonia

16.00 – 16.20 Medicolegal Aspects of Anaesthesia and Intensive Care in Pediatric Patients
Biljana Drašković

16.20 – 16.40 Medicolegal aspects in trauma
Milena Pandurović

16.40 – 17.00 Ethical dilemmas related to neurosurgical patient
Valentina Aleksić

SATURDAY October 9, 2010
AFTERNOON
ROOM C

NEW METHODS AND DRUGS IN ANAESTHESIA

SUNDAY October 10, 2010
MORNING
ROOM A

CROSS INFECTIONS IN ICU

Moderator: Predrag Romić

09.00 – 09.20 The central venous catheter in the Intensive Care Unit – prevention and infection treatment

Milić Veljović, Nikola Filipović

09.20 – 09.40 Nosocomial infections in the Surgical Intensive Care Unit of the Military Medical Academy

V.Šuljagić, Predrag Romić

09.40 – 10.00 Epidemiology of the system infections acquired in the Surgical Intensive Care Unit of the Military Medical Academy from 2006 to 2009

V.Šuljagić, Zoran Slavković

10.00 – 10.20 Infection control problems in the ICU

Nataša Mazić

10.20 – 10.40 Infections associated with esophageal surgery in the ICU

Vitomir Ranković

10.40 – 11.00 Cross-Infections in Neurosurgical ICU

Mladen Dostanić

SUNDAY October 10, 2010

MORNING

ROOM B

ASSESSING THE DEPTH OF ANAESTHESIA

Moderator: Branko Milaković

09.00 – 09.20 A modern concept of the anaesthetic state - definitions, pharmacological view, experimental characterization and fundamental relationships

Branko Milaković

09.20 – 09.40 Electrophysiologic monitoring - clinical development, validation and interpretation in assessing the depth of anaesthesia

Vladimir Bojović

09.40 – 10.00 Awareness during general anaesthesia - implications of explicit, intraoperative recall

Dragana Radovanović

10.00 – 10.20 Awareness during anaesthesia for ear, nose and throat surgery - clinical use of the Bispectral Index

Nadežda Radošić

10.20 – 10.40 Awareness during pediatric anaesthesia - clinical use of the BiSpectral Index

Dejan Novaković

10.40 – 11.00 Neuromonitoring and TCI anaesthesia

Mirjana Kendrišić

11.00 – 11.20 Awareness during neurosurgical anaesthesia - clinical use of the BiSpectral Index

Mila Stošić

SUNDAY October 10, 2010
MORNING
ROOM C

ANESTHESIA IN TRANSPLANTATION
Moderator: Miomir Jović

09.00 – 09.20 Organization of organ transplantation in Serbia - 15 years of (non)experience
Nebojša Tasić

09.20 – 09.40 Diagnosis of brain death and maintenance of cadaveric donor
Danica Hajduković

09.40 – 10.00 Preoperative preparation and anesthesia of patients scheduled for kidney transplantation
Nebojša Lađević

10.00 – 10.20 Liver transplantation - intraoperative anesthesiological problems
Svetlana Erdeljan

10.20 – 10.40 Liver transplantation - postoperative treatment
Ivan Palibrk

10.40 – 11.00 Heart transplantation - preoperative evaluation, intraoperative and postoperative treatment
Miomir Jović

11.00 – 11.20 The principles of modern immunosuppressive therapy after solid organ transplantation
Vera Moravić
